From: 'A' Cell

To:

Subject: Operation 'See No Evil'

Your employers will shortly be tasking you to head up a surveillance operation against an organisation that the FBI has recently developed an interest in.

This organisation, and the individuals comprising its leadership, is also of potential interest to DELTA GREEN. We require objective analysis and intelligence in this matter, and consequently we cannot share any further information on the target subjects with your Cell at this time.

Your superiors will place legal parameters upon the nature of the surveillance that you will be conducting. As DELTA GREEN agents, you will NOT be bound by such parameters. Given your recent experiences, I am sure that you will understand when I say that you are to consider yourselves answerable to a higher authority.

The fellow members of your team are NOT cleared for DELTA GREEN intelligence and will be unaware of your true purpose in this operation. Extreme caution must therefore be exercised, particularly with regards to any breach of the legal parameters discussed above.

However, a technical specialist from another Agency will be tasked to support your team. He has been instructed to follow your direction in all matters pertaining to the surveillance (including potential questions of legality) and he should be assessed for potential recruitment to your Cell at some point in the future. This individual while not DELTA GREEN 'aware' or 'friendly' has unique characteristics that make him a very suitable subject for induction.

To summarise your objectives:

- 1) Covertly gather intelligence on the target subject(s) while maintaining your cover. We will be particularly interested in any indications of 'occult interest' or of any manifestation of paranormal phenomena.
- 2) Report back to 'A' cell when the surveillance operation is complete, or at your discretion should circumstance dictate.

Be seeing you, Alphonse.
